

# BABAFEMI SUNDAY OLATUNJI

📍 Salzburg, Austria. 📞 +4368864007279

✉ Email,  LinkedIn,  Github

## PROFILE STATEMENT

Driven professional with a strong foundation in scientific research and analytical problem-solving. Currently focused on developing expertise in spatial data analysis, remote sensing, and the management of complex data infrastructures. I am dedicated to applying technical expertise to interpret spatial information and deliver innovative, results-oriented solutions.

## EXPERIENCE

### IGN/Geodataris

*Intern – Geovisualization*

**April '26 - present**

*Paris, France.*

- Visualized ensemble coastal flood datasets for the Arcachon Basin using GIS and cartographic techniques.
- Generated flood indicators and thematic maps from NetCDF-based spatial datasets.
- Applied ArcGIS Pro, QGIS, and Python for spatial analysis and geovisualization workflows.
- Produced coastal flood maps focused on vulnerable shoreline and inhabited areas.
- Supported geospatial research on flood interpretation and environmental visualization.

### Solidarity & Unity

*Intern – Data Analyst*

**Feb '26 - Mar '26**

*Amsterdam, Netherlands*

- Assisted with GIS and spatial data analysis tasks.
- Worked on refugee and asylum-related data focused on Tanzania.
- Supported data visualization and analytical reporting activities.

## EDUCATION

### Paris Lodron University of Salzburg

*Master of Science in (Applied Geoinformatics)*

**Mar '23 - Present**

*Salzburg, Austria.*

### Ondo State University of Science and Technology

*Bachelor of Technology in (Physics)*

**Nov '12 - Dec '17**

*Okitipupa, Nigeria.*

## TECHNICAL SKILLS

**Data Analysis & Languages:** Python, JavaScript, SQL

**Geospatial Analysis & GIS:** ArcGIS Enterprises, QGIS, Google Earth Engine, Remote Sensing

**MS 365 & Digital Tools:** PowerApps, Excel, PowerPoint, Word, SharePoint, Power Automate

**Visualization Tools:** Tableau, Power BI, StoryMaps

**Other skills:** Project Management, Communication

## PROJECTS

- **Great places to explore in summer (Salzburg City):** Interactive maps displaying places to visit in summer with HTML, CSS, JavaScript, [Link](#).
- **Austria Employment Insight (SDI):** Spatial data Infrastructure with SQL, PostGIS ArcGIS Pro, Web Services (WMS, WFS, Feature layer) and [Link](#).
- **Malaria Incidence in Nigeria:** A study that discuss the factors influencing malaria incidence in Nigeria with Python, PostGIS, Dashboard, Story [Link](#).

## CERTIFICATIONS

- Cartography [Link](#).
- Advanced Spatial Data Management, including data processing and spatial modeling
- Data Analysis Bootcamp completion, emphasizing Python programming for data science
- Spatial Analysis.
- Remote Sensing for Environmental Analysis

## LANGUAGES

**English** (Fluent)

**French** (Basic)

**German** (Basic)
